

# Environmental Philosophy

Pressure Systems values regarding the environment are rooted in the belief that all companies should be responsible members of their local and global community. As a supplier to the environmental water industry, PSI feels an added obligation to be a guardian of the environment and serve as a positive role model.

- 1) Seek new products, processes, markets, and applications that contribute or otherwise preserve the health of the environment,
- 2) Employ personnel whose values include concern for the environment and train them on maintaining an environmentally-friendly workplace,
- 3) Use environmentally-friendly products to the fullest extent possible,
- 4) Recycle and minimize waste to the fullest extent possible,
- 5) Dispose of any unfriendly waste properly,
- 6) Voluntarily adhere to environmental initiatives such as RoHS and ISO 14000 to the fullest extent practical,
- 7) Expand our facility in ways that preserve the environment such as replacing any trees that must be taken down.
